

There are two different ways to properly dispose of large unwanted household appliances such as fridges, freezers and cookers. By following one of the steps below, we can ensure that these items are not fly-tipped around our town.

## BULKY COLLECTION - DONCASTER COUNCIL

This service is for collection of unwanted bulky household appliances such as fridges/freezers, furniture and mattresses. This collection can be booked via the Council website and up to eight items can be collected at once for a small fee.

## COLLECTION UPON REPLACEMENT

Alternatively, if you are ready to replace your appliance and are placing an order for a new one, the company in which you are purchasing with will offer a service to take away your old appliance, usually for a small fee ranging from £0-£20.

# LET'S STOP FLY TIPPING - TOGETHER
