Flexible Modular Space on Bungalow Road

EDLINGTON ROYAL ESTATE

The Royal Estate is situated to the West of Edlington, at the side of Victoria Academy School. Together with two local churches and adjacent to greenbelt land, the estate has huge potential to become an important area for the Edlington community – especially given its proximity to key community assets.

The investment proposal centres on revitalising the area and transforming the look, feel and ambience of the Royal Estate through green intervention. This project would be just one of the planned intervention strategies for the area, which involves a multi-agency approach to improving the Royal Estate.
